OUR REACH

Australia

Primary headquarters in Perth, WA — serving major mining, oil & gas and infrastructure projects nationwide.

North America

Supporting large-scale energy and infrastructure programs across the USA and Canada.

Asia Pacific

Project controls and PMO advisory for growing energy and construction markets across Asia.

1 Program & Project Management End-to-end management consultancy for complex programs and projects — from initiation to closeout.	2 Primavera P6 Planning & Scheduling Expert scheduling using Oracle Primavera P6, delivering baseline schedules, updates and progress reporting.	3 Project Controls Integrated project controls covering scope, cost, schedule, and performance measurement frameworks.	4 Earned Value Management (EVM) Full EVM implementation — BCWS, BCWP, ACWP, CPI, SPI — for reliable performance forecasting.
5 Cost Control & Forecasting Budget management, cost tracking, variance analysis, and ETC/EAC forecasting across project lifecycle.	6 Delay Analysis & Recovery Planning Forensic delay analysis using recognised methodologies and actionable schedule recovery strategies.	7 Resource & Cost Loading Detailed resource and cost loading into schedules for integrated time-cost control and reporting.	8 PMO Advisory Establishing and optimising Project Management Offices with governance frameworks and reporting systems.
